Dear Mike:

The recent article in The Washington Post brings to mind again our need to resolve the situation of our having papers removed from researchers which are not classified. I believe this was clearly laid out in my letter of October 24 which is attached.

It also appears clear that if we let the situation continue it will only provide further embarrassment to both NSA and the Marshall Foundation. I am suggesting that if we don't hear from you by January 20, our people will return the unclassified papers in the Friedman Papers to the open files.

Sincerely yours,

 Fred L. Hadsel
Director
